

Photo	Model	Technical Features
	<u>TWM-55AS/A</u>	Capacity: 5.5kg Computer control Spray 3D waterfall washing Ten shifts of water level Soaking washing function Time presetting Time and fault intelligent LED display Stainless steel internal drum Quality full plastic tub body
	<u>TWM-55AS/B</u>	Capacity: 5.5kg Computer control Spray 3D waterfall washing Mechanical control of 4 shifts of water level Soaking washing function Stainless steel internal drum Quality full plastic tub body
	<u>TWM-55AMS</u>	Capacity: 5.5kg Computer control Spray 3D waterfall washing Ten shifts of water level Soaking washing function Time presetting Time and fault intelligent LED display Stainless steel internal drum Quality zinc-steel plate tub body
	<u>TWM-60AMS</u>	Rotative Dewatering Barrel Manual Rubbing Washing, Circular Full Spray Wash and Brush Flow, Intelligent Computer control, 10 shifts of Water Level, Soaking Washing, Time Presetting, Time and Malfunction LED Display Window, Stainless Steel Dewatering Barrel, Galvanized Steel Plate Body, Stainless Steel Pulsator

TWM-65AMS

Capacity: 6.5kg
Computer control
Drum manual-rubbing washing mode
Spray 3D waterfall washing
Ten shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel internal drum
Stainless pulsators
Ti-gold color appearance
Quality zinc-steel plate tub body

TWM-70AMR/A

Capacity: 7.0kg
Computer control
Spray 3D waterfall washing
Eight shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel drum with reinforced spiral
Quality zinc-steel plate tub body

TWM-70AMR/B

Capacity: 7.0kg
Computer control
Spray 3D waterfall washing
Eight shifts of water level
Cool and hot water inlets
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel internal drum
Quality zinc-steel plate tub body

TWM-70AMR/C

Capacity: 7.0kg
Computer control
Spray 3D waterfall washing
Eight shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel drum with reinforced spiral
Quality zinc-steel plate tub body

TWM-65AMS/B

Capacity: 6.5kg
Computer control
Fuzzy washing
Mini-washing
Nine shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless pulsators
Stainless steel internal drum without holes
Quality zinc-steel plate tub body

TWM-65AS/A

Capacity: 6.5kg
Computer control
Mini-washing
See-through cover
Ten shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel internal drum
Quality full plastic tub body

TWM-65AS/B

Capacity: 6.5kg
Computer control
Mini-washing
Fuzzy washing
See-through cover
Ten shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel internal drum
Quality full plastic tub body

TWM-55AS/C

Capacity: 5.5kg
Computer control
Spray 3D waterfall washing
Ten shifts of water level
Soaking washing function
Time presetting

Time and fault intelligent LED display
Stainless steel internal drum
Quality full plastic tub bo

TWM-45AS/A

Capacity: 4.5kg
Computer control
Spray 3D waterfall washing
Ten shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Stainless steel internal drum
Quality full plastic tub bod

TWM-45AS/B

Capacity: 4.5kg
Computer control
Spray 3D waterfall washing
Mechanical control of 4 shifts of water level
Soaking washing function
Stainless steel internal drum
Quality full plastic tub body

TWM-60AMR

Capacity: 6.0kg
Computer control
Spray 3D waterfall washing
Eight shifts of water level
Soaking washing function
Time presetting
Time and fault intelligent LED display
Tub clean
Baby lock
Stainless steel internal drum without holes
Quality zinc-steel plate tub body
